Manufacturing Detectable Warning Pavers

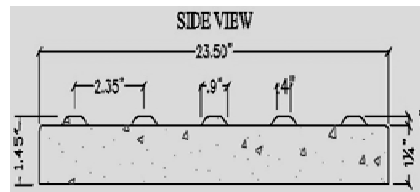

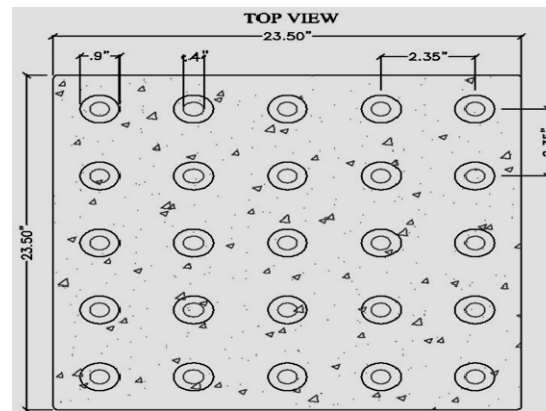

Devoted to providing
quality products

Specifications

- ◆ Our pre-cast pavers are manufactured using a concrete mix that is rated at 8,500 psi (type U) or 10,000 psi (type M).
- ◆ The outside perimeter of the paver angles to allow for contoured installations. This angle also allows for easy caulk installation.
- ◆ All pavers have a protective sealant applied prior to shipping. This eliminates the need to seal during installation.
- ◆ Slip resistant surfaces
- ◆ Our pavers available in 24" X 24" or 12" x 12". In stock color is brick red.
- ◆ Custom colors are available upon request with quantity pricing.

All pavers are manufactured under the American Disabilities Act requirements.

As government regulations change it is recommended to evaluate each project individually to be ADA compliant. As site conditions are not within our control, your project will have to be developed with specifications suited to each individual plan.
